

The Centre for Fisheries and Aquaculture Management and Economics (FAME); and the Nordic Network in Resource and Fisheries Economics and Management (NorFame) are pleased to announce:

### **Workshop on**

Social & Natural Scientific Advice in Marine Renewable Resource: Closing the Gap between Politics & Theoretical Ideals in Fisheries Management

University of Southern Denmark, Esbjerg, Denmark  
6<sup>th</sup> – 8<sup>th</sup> June 2007

### **Guest lectures**

Dr Ussif Rashid Sumaila	University of British Columbia
Director Laurence D. Mee	University of Plymouth
Prof. Niels Vestergaard	University of Southern Denmark
Scientific Adviser Poul Degnbol	European Commission, DG Fisheries & Maritime Affairs

### **Background**

Management of marine renewable resources is complicated by the fact that sound management calls for advice for both natural & social scientist or at best a common and coordinated advice from the two scientific communities. Add to this the reality that the actual management often bears little resemblance to the design guidance that is given in bio-economics textbooks.

So, the questions are 1) How to establish the fruitful interface between biologists and economics and 2) Whether there is a room for policy-oriented biologists and economists?

The workshop will address these issues. One core factor influencing the interface between biological and economical advice is the transformation of the knowledge

of the stocks to economic units. Another factor to explore is how much room there is for design improvements that still respect the political constraints in fishery management.

## **Participation**

The workshop is free of charge for anyone wishing to participate. Travel and Accommodation expenses are covered for a limited number of participants from the Nordic and Baltic countries by a grant from NordForsk. Please notify us when you enroll.

Oral presentations of papers and poster presentations are possible and encouraged, please notify [fame@sam.sdu.dk](mailto:fame@sam.sdu.dk)

Deadline for enrolment is 4<sup>th</sup> May 2007.

## **Contact**

FAME  
Department of Environmental and Business Economics
